

Project Manager

Acadian Construction is a locally owned company that was established in South East New Brunswick in 1958. Our company is built on a commitment to our clients, investment in our people and focusing on our core values: Teamwork, Integrity, Professionalism and Engagement.

Acadian takes pride in building and we strongly believe in giving back to our community by supporting local charitable causes both financially and through volunteer work. A healthy community allows healthy businesses to thrive.

We are looking for new team members who describe themselves and are energized by the following:

- Excellent problem-solving skills and an understanding that all project stakeholders depend on the Acadian Team to manage solutions in order to move our client's project forward.
- Working on challenging projects where setting goals and delivering on expectations is a daily framework for success and excellence.
- Ability to motivate people towards a common goal of completing what we have committed to as a team.
- The willingness to always improve through the adoption of new technologies, learning new methods or accepting constructive criticism.
- Capability of managing large scale projects while keeping attention to detail.
- Team mindset with the inclination to help colleagues to get things done and share best practices amongst team members.
- Willingness to learn the Acadian Way of doing things and follow a defined process of project management.

Acadian Construction is a well-respected member of the construction industry with an excellent reputation with both our clients and other members of the industry. We can attract top talent through:

- A competitive compensation package.
- Pension Plan
- Excellent health benefits including an Employee Assistance Program
- Professional Development Opportunities.
- A strong team culture.
- A modern office with free access to our onsite Gym Facility.

Qualifications:

- CET/P.Tech, MIT or P Eng. designation with related job experience
- 2+ years project management experience
- 3+ years construction industry experience
- Excellent communication skills
- Strong computer skills and experience working with MS Office suite including MS Project.
- Bilingualism (English/French) is considered an asset.

If you think that you have what it takes to work at Acadian Construction, then we look forward to hearing from you.
